Mail Bid Only Auction #153

Closes Thursday, July 11, 1996 - 12:00 Noon

Where historic paper collections of the world are researched, auctioned, bought and sold.

TERMS OF SALE

1) A 10% buyers charge will be added to the hammer price of each lot purchased.

2) All bids are per lot as numbered in this catalogue.

3) Bids less than 50% of the estimate **will not be accepted.**

4) We reserve the right to withdraw any lot prior to sale.

5) All successful bidders shall be billed for postage, handling and insurance.

6) **We cannot be responsible for the loss of any merchandise shipped outside the United States.**

7) **All framed items are shipped at the purchaser's risk.**

8) SMYTHE reserves the right to **reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.**

9) A SMYTHE auction bidder expressly waives any claim or right to any accounting, damages or compensation arising out of SMYTHE'S failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.

10) United States coins and currency will not, in conformity with law, be opened at less than face value.

11) No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer.

12) In the case of a tie between a mail bidder on the book and a bidder on the floor, the mail bidder shall take precedence.

13) **All bids must be in whole dollar amounts. Percentage increases will be rounded up to the nearest dollar.**

14) **Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.**

15) No minors may participate in our sales. **Agents bidding on behalf of others will be held liable if their principals fail to make payment.**

16) Payment for purchases is to be made by cash, check, money order or bank wire upon receipt of invoice. No lots may be taken away unless paid for in full. A late charge of 1-1/2% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their total bids in advance. Credit cards will not be accepted for auction purchases.

17) Title does not pass until payment in full is received. SMYTHE reserves the right to await clearance of any check before making delivery.

18) If a collection agency or attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by SMYTHE in procuring judgement shall be borne by the defendant. The signer of a SMYTHE bid sheet or participant in the auction concedes the jurisdiction of the courts of the U.S. in New York City or the New York State courts as SMYTHE alone shall elect. The participant in a SMYTHE auction also assumes both corporate and personal liability for unpaid auction bills.

19) SMYTHE may reopen the bidding on a lot under the following circumstances: 1) SMYTHE has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a protest is made after the hammer has fallen but before bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the auctioneer.

20) In the event of dispute, the auctioneer's decision is final.

21) New York State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.

22) No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.

23) In the event of unsuccessful litigation the plaintiff shall pay SMYTHE'S legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the New York prime rate from the date of actual disbursement.

24) The same protections applicable to SMYTHE apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.

25) SMYTHE assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.

26) All accounts are payable to SMYTHE in U.S. funds and remittances must cover the service charges for foreign drafts which shall be added to each invoice.

27) **All material in this catalogue is unconditionally guaranteed to be genuine.**

28) No lots may be returned by floor bidders except for non-authenticity.

29) Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or thirty days from the auction's last day, whichever comes first. Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it.

30) In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (30 days after the sale,) notify SMYTHE of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.

31) The auctioneer reserves the right to postpone the sale by auction for a reasonable period of time as a result of any significant event which, in the sole discretion of the auctioneer, makes it advisable to postpone the event. No prospective bidder or prospective buyer shall have recourse as a result of any postponement.

32) The placing of a bid shall constitute **full acceptance of the foregoing terms and conditions of sale.**

Condition Terminology For Paper

Gem Unc. (Gem Uncirculated) - The perfect uncirculated item, clean, bright, vivid, crisp (where paper permits), well-margined, unimprovable, without folds.
Choice Unc. (Choice Uncirculated) - A lovely uncirculated item, having only a hint of aging or unevenness of the margins, face or back, or narrow margins which take it out of the "Gem" class.
Unc. (Uncirculated) - As made or issued, but margins may be poor, the item lightly aged, with border trimming.
Choice AU (Choice Almost Uncirculated) - Essentially a mishandled uncirculated item with deficiencies like a corner fold, teller counting smudge or count wrinkling.
AU (Almost Uncirculated) - There is one fold, a teller counting smudge or counting wrinkling present.
EF (Extremely Fine) - An item which may, at first glance, look uncirculated, but which has several petty folds, or a hard crease down the center perhaps with corner folds. Crisp, bright, vivid and pleasing, the paper as made, permitting.
VF (Very Fine) - Typically an item marked by moderate quarterfolds with perhaps a few other signs of handling. Should be clean, not seriously aged, torn, or pinholed.
F (Fine) - The last grade of an item in which the paper still has body. The folds are numerous and the design is beginning to show signs of soiling wear.
VG (Very Good) - A well-circulated item, complete, unimpaired except for petty tears and splits, pin holes, some surface splitting along heavy folds and soiling.
Good - An even more heavily circulated item with body holes, petty tears and splits, very soiled and tired, scarcely legible.
Fair - Heavily worn, split, holed, up to 10% gone, legibility seriously impaired.
Poor - A mere remnant, tattered and torn, scarcely readable with typically more than 10% of its surface area gone.
Abt (before a grade) - A shade below the grade it precedes.
Plus or + (following a grade) - A shade better than the grade.
VF-EF (hyphen between grades) - The grade is about halfway between the two grades shown.
VF/Good (slash between two grades) - Face and back are two different grades. The grade preceding the slash is for the face. The grade following is for the back.

How To Get the Best Results When Bidding in a Mail Bid Sale

Bidding in mail bid auctions can sometimes be a real challenge, but mail bid auctions are real opportunities for collectors to acquire items that may be hard to obtain any other way. Experience has taught us ways to minimize frustrations, and maximize results, and we would like to share some of those ideas with you. Here are the questions we are asked most often and some of the suggestions we have made to bidders. We think they will save you time, money and help you win lots you might otherwise miss.

"I can't come to your office to view lots, but I want to know more about a particular lot before I bid on it."

Lots are available at the times and places posted in the front of the catalogue. We often bring lots to conventions, and there is no better way to learn about numismatics or scripophily than to attend a convention, view auction lots, and talk to dealers and collectors. But if you can't be there, here is how we can help you get a better idea of what you are bidding on:

1) **Call us, and we will be happy to have one of our experts describe any lot you ask about.**
2) **We can arrange to copy most items and we will FAX or mail the copies to you at a nominal charge.**
3) **If you have established credit with us we may be able to ship lots to you for direct viewing.**

Please realize that requests for phone assistance, for copies or for shipping lots directly to you **must be arranged well in advance of the closing date of the sale.**

"I have a limited budget and although there are many items I would like to bid on, I am afraid of exceeding my budget."

There is an easy way to solve this problem. It is called **a "limit" bid sheet.** Let's look at an example. Mr. Smith collects Confederate notes and he sees that there are over thirty lots he would like to buy. His budget is $1,000, but the estimates on the thirty lots he likes add up to well over $5,000. If he bids on all thirty he might win them all and exceed his budget. To be safe, he bids on only ten, and he wins only one lot for a $100. Mr. Smith is disappointed because he missed the chance to bid on all thirty lots. **He could have bid safely on all thirty lots and increased his chances of improving his collection by submitting a "limit" bid sheet.** Here is how it works.

Mr. Jones has the same collecting interests as Mr. Smith. He has the same $1,000 budget. Mr. Jones bids on **all thirty lots** he is interested in. He writes at the bottom of his bid sheet **"Please limit my total bids to $1,000."** Every time Mr. Jones wins a lot we keep track of his total spending. When the total reaches $1,000 we will stop applying his bids. We did what he would have done had he been at a live auction. We spent only what he budgeted for.

There is a special advantage to limit bidding in a mail bid sale - the bids can be listed in order of your preference. List the lots you want most first.

"I see that there are two similar lots in the sale. I want only one of them, not both of them."

This problem can be solved with an **"OR"** bid. Let's assume that Lot #101 and Lot #102 are identical. You wish to bid $200 on either one, but you don't want both. Write the following on your bid sheet and you can accomplish your goal:

"#101 OR #102 at $200"

If you win Lot #101 we will cancel your bid on #102.

"What if there are three similar lots and I only want one?"

"#101 OR #102 OR #103 at $200" will work perfectly.

"When I don't win a lot I often seem to loose it by just a few dollars. It almost looks as if someone knows what I am bidding and they bid a little more. What is going on?"

Every auction house has its own way of closing a mail bid sale. Some houses will tell bidders exactly how much the highest bid is at any given moment right up until the end of the sale. We feel this is unfair, because anyone who is able to get through by phone near the end of the sale can top anyone else. If auctions are closed in this manner clients who are "friends of the house" have a distinct advantage and can top other bidders at the end. Those who bid early are at a disadvantage. To eliminate this problem **we don't give out information on what the highest bid is.** We advise bidders to bid exactly as much as they are willing to spend on a lot, and where possible, if they win a lot we reduce their bids to an increment just above the next highest bidder (there are exceptions - please see the Terms of Sale).

We think this method is fair to everyone involved, but it does result in bidders sometimes losing lots by $1, or $5 at times. If Mr. Jones bids $100 on an item and Mr. Smith bids $101, we have no choice but to award the lot to Mr. Smith for $101.

"I bid $30 on a lot that was estimated at $100 and I didn't get the lot. Later, when I got the Prices Realized the lot was reported as unsold. Why didn't I get the lot?"

The Terms of Sale state that bids less than 50% of the estimate will not be accepted. As auctioneers, we have a responsibility to the consignors as well as the bidders. Any bid that is considered to be less than the "...regular market value..." of the item may be rejected by the auction house. Keep this in mind when making bids below the estimates given.

We hope these questions and answers have been helpful, and if you have any comments, suggestions, or further questions concerning R. M. Smythe auctions, please feel free to call us at 800-622-1880, or 212-943-1880.

What Are "SPECIMENS" ?

When bank note companies print stocks or bonds for their customers they often print a few additional copies for various purposes. Some are kept in the bank note companies reference files. Others are sent to the customers who use them as counterfeit detectors. These extra copies usually have the word "SPECIMEN" printed into the signature blocks and they have "00000" serial numbers so that they cannot be misrepresented as regularly issued stocks or bonds. While SPECIMENS lack the signatures of the corporate officials, they are usually in pristine condition, and often they are the only way to obtain an example of a particular stock or bond.

What Are "SPECIMENS" ?

When bank note companies print stocks or bonds for their customers they often print a few additional copies for various purposes. Some are kept in the bank note companies reference files. Others are sent to the customers who use them as counterfeit detectors. These extra copies usually have the word "SPECIMEN" printed into the signature blocks and they have "00000" serial numbers so that they cannot be misrepresented as regularly issued stocks or bonds. While SPECIMENS lack the signatures of the corporate officials, they are usually in pristine condition, and often they are the only way to obtain an example of a particular stock or bond.

"Leeds" was Sir Thomas Osborne Leeds, (1631-1712) first Earl of Danby, Marquis of Camarthen and first Duke of Leeds. (1694). He was Charles II's chief minister and Lord Treasurer from 1673-1679, was imprisoned in the Tower on suspicion of being a party to Charles II's pro-French policy and general corruption. He narrowly avoided being condemned to death by a bill of attainder but was released in 1684 and helped put William III and Mary II on the throne in 1688. He was again Lord Treasurer from 1690-1695 and was promoted Duke in 1694, just prior to the drawing of this draft.

Sir Francis Child (1642-1713) was a goldsmith who converted his business into that of a banker. He was jeweler to the royal family and lent the Crown large sums of money. He was Lord Mayor of London and sat in Parliament from 1698 on and had great influence on British financial policy during the period.

Confederate States of America

Confederate Currency

5147 **Confederate May 16, 1861 Act Bills.**[3] *($160-Up)*
1) **$50.** T-8. (Cr.20). **F-VF,** trimmed into the bottom border. 2) **$20.** T-9. (Cr.29B). **Fine, plus.** 3) **$10.** T-10. (Cr.37). No.95421 (Rare high number). **VG-Fine,** aged.

5148 **Confederate Act of May 16, 1861 and August 19, 1861 Notes.** [7] *($180-Up)*
1) **$20.** T-9. (Cr.31). **Fine, plus.** 2) **$10.** T-10. (Cr.40A). Rare variety. **VG.** 3) **$100.** T-13. **VG,** aged, trimmed. 4) **$50.** T-14. **VG-Fine,** aged, trimmed. 5) **$20.** T-18. **Fine,** pencil notations on the back. 6) **$20.** T-20. **Abt VF,** looks better on the face. 7) **$10.** T-28. **Fine, plus,** aging, crumpled on the right end.

CSA Type 20 Mimic Note

5149 **GA:** *Savannah.* Farmers and Manufacturers Bank. **$20.** (GA-285, G-10). **U. VG,** many fold splits, repaired on the back with liquid paper, stains face and back. *($75-Up)*
In early 1862 Blanton Duncan, the Confederate printer, got an order for notes from what purported to be the Farmers and Manufacturers Bank of Savannah, accompanied by a good check. Using the basic design employed for the T-20 notes, including the denomination counters, Duncan filled the order, only to discover before shipping the notes to Savannah that there was no such bank. CSA detectives were stationed to watch the post box address of the "bank", but apparently the man who ordered these notes noticed the detectives or was otherwise tipped off, and therefore never attempted to pick them up. No one has seen either the $5 or $10 notes.

5150 Act of August 19, 1861. **$20.** CT20/141. 6. This note has a Jackson, Miss stamp for September. Pen cancelled, **Unc,** glue stains in each corner. *($40-Up)*
The falsity of the Jackson postal stamp is evident, if compared with the genuine ones on the types 39-41 notes. The fake is too round, too sharp and the lettering is all wrong, both as to size, spacing etc.

5151 **Act of August 19, 1861 Type 20 Counterfeits.** [3] *($60-Up)*
1) **$20.** CT20/139. 2. **VG, plus.** 2) **$20.** CT20/141. 6. Part off set on reverse. **Fine.** 3) Similar, but paper watermarked J. Whatman/ 1861. **AU,** back hinges. Since the Confederates did not start using the Whatman paper until well into 1862, it would appear that this paper was used inadvertently and that the counterfeiters may not have been aware of it or if they were, paid it no heed.

Nice T-22

5152 Act of August 19, 1861. **$10.** T-22. (Cr.151). **Fine, plus,** Good to tight margins, decent color. Some aging and some small foxing spots on the back. A better than average representative of this type. **(Photo)** *($200-Up)*

5153 Act of September 2, 1861. **$5.** Type 32. A solid **Fine,** but the color is faded almost all the way, nicely bordered and still an excellent type note; especially considering what a well colored note in this grade commands these days. *($200-Up)*

5154 Act of April 18, 1862. **$100.** Z. No.1297. T-41 (Cr.310). **AU,** wrinkling. *($60-Up)*

5155 Act of April 18, 1862. **$100.** Z. No.1279. T-41 (Cr.311). **Unc.** *($75-Up)*
This and the Cr.310 belong to a mere 1800 sheets of this sort, with the absence of "the" before Confederate.

Rare Watermark T-41

5156 Act of April 18, 1862. **$100.** T-41. (Cr.314). Z. No.1246. **AU,** slightly mishandled. *($200-Up)*
This watermark, Hodgkinson & Co., Wookey Hole Mill, which sounds like something out of Pogo is quite Rare in this variety. The firm which made this paper is located near Wells in Somerset and is now a museum of British paper making. The paper was procured by Major Benjamin F. Evans of Evans and Cogswell in London during his supply mission in early 1862. Only a few reams were procured, and these were scattered among various Confederate and state note issues. Serial letter W is the commonest form known; Z is scarcer.

5157 Act of October 13, 1862. **$10.** T-52. (Cr.369). H. No.57944. **Error: Inverted Back. G-VG,** soiled, petty pin holes, an a foxing stain. *($100-Up)*
Inverted backs appear most frequently in this issue because the printers had not had to do backs before and therefore alignment problems were ignored, and printers other than Keatinge and Ball or Evans and Cogswell tended, at first, to be a bit careless.

5158 March 23, 1863 Act **$5.** T-60 (Cr.451/1) Error: A/D. No.11174 **fine,** a small body hole, the right border is trimmed *($50-Up)*

5159 **Act of February 17, 1864 Mystery Notes.** [2] *($75-Up)*
1) **$10.** T-68. "H". "7 Series". Stamped with ruled lines and "Seven-Fifty" three times and "$7.50" three times, all in black. Also stamped on the back, "CSA TREASURY/REISSUED/JAN. 5, 1865". **AU,** top right corner tip torn off. 2) **$5.** T-69. E. First Series. Stamped with black lines as last with "$3.75" stamped on all four sides. Also stamped on the back in a manner similar to the preceding in red. **VG.**
What are these notes? Our opinion is that they are certainly not what they purport to be. Both notes were legal issues of the Treasury and did not need to be stamped to be reissued, so that the backs are manifest fakes. Under the act of February 17, 1864, old notes were exchangeable for new at the rate of three for two. The stamps on the face indicate that such notes are to be reduced in value by a quarter. Since they were not subject to the funding act, these ratios are clearly erroneous. The black lines simply are there to give verisimilitude to an otherwise bald and unconvincing narrative. In short, the stamps are there for the "benefit" of some credulous collector. Good try, no cigar. Still an interesting curiosity for the collector of fake Confederate surcharges.

1907 Clearing House Certificates

The following lots are further selections from the 1907 Clearing House Certificate collection we have the pleasure of selling in our Public sale on June 22, 1996. Please see that catalogue for a detailed introduction to the series and the June issue of ***Bank Note Reporter*** *for an in depth look at this under collected series.*

These certificates should not only be of interest to the collector of obsolete currency, but to National Banknote collectors as well because they have a relationship with how the National Banks at that time period did business.

Put together as a collection long ago, many of these items are the first we have seen or handled in twenty years of cataloguing NASCA sales and our current Smythe Currency and Certificate auctions.
